

### **REMARKS**

The present Amendment and Response is intended to be fully responsive to all points of objections and/or rejections raised by the Examiner and is believed to place the application in condition for allowance. Favorable reconsideration and allowance of the application are respectfully requested.

Applicant asserts that the present invention is new, non-obvious and useful. Prompt reconsideration and allowance of the claims are respectfully requested.

#### ***Claim Rejections - 35 USC §112***

The Office Action of June 4, 2007 rejected claims 1-21 under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention.

#### ***Claim Rejections - 35 USC §102***

Without conceding appropriateness of the rejections of claims 1-21, Applicants have cancelled claims 1-21 in order to facilitate expeditious prosecution of the allowable subject matter noted by the Examiner. Applicants reserve the right to pursue claims 1-21 and other claims in one or more continuation and/or divisional patent applications.
